

# The Movement of God

IN US    AMONG US    THROUGH US

With some of the CRM Asia Team

August 1, 2014

Exciting, inspirational, informative, fun and confirming are all adjectives I would use to describe my time with CRM (Church Resource Ministries, see [www.crmleaders.org](http://www.crmleaders.org)) at their World Wide Conference held every four years. I was privileged to be in Cancun, Mexico to “date” CRM as my friend Jean described it! It was very helpful in my discernment process as I seek the Lord in regards to joining this organization.

CRM is a Christ-centered organization with 425 staff worldwide pursuing three strategic initiatives:

- Pioneering new ground among the unreached and unchurched
- Bringing transformation among the poor
- Mobilizing the Church for mission

The specific role I am considering with CRM is with the International ReFocusing team along with my friends, Rob and Jean Gill (pictured at right). We have been working together to help cross-cultural workers in Cambodia to regain focus and become intentional about their ongoing personal and ministry development for several years. Jean and Rob would like to see the ministry expanded to include workers in other parts of Asia. It would be an opportunity for me to use my skills in facilitating and coaching. I would primarily work from home in Arnold, MO but would probably travel to Asia a couple times a year. I am in the process of applying. TK is very supportive of me in this step. Please join me in praying for the Lord to use the process to guide my decision.
